

SP 15.1 Subcontracting by Negotiation

Substantive changes made for the 4-3-06 revision:

1. With the adoption of LLNL's P-500 in LBNL's new SP 15.4 *Source Selection*, SP 15.1 became mostly redundant in subject matter. So, we eliminated the sections of SP 15.1 that described the selection and evaluation process (most of the SP), and just retained text that refers specifically to negotiation. Because of these changes, the SP went from ten pages to one. Since showing all of the eliminated text in the new draft would be cumbersome, a copy of the previous version of SP 15.1 is also attached, with the retained sections highlighted in yellow. These retained sections (some of which have been edited in the new draft) include "**PURPOSE**", "**POLICY**", "**SCOPE**" (all on page 1 of the previous SP 15.1), and "**Background**" (on page 6 of the previous SP 15.1).
2. Edits the scope to clearly differentiate sealed bidding from negotiation.
3. Adds SP 35.1, *Research and Development – General* to the SCOPE section.
4. Cross-references SP 15.4 *Source Selection*.
